

Model BS-250 Series

Digital Indicator (load limiter)

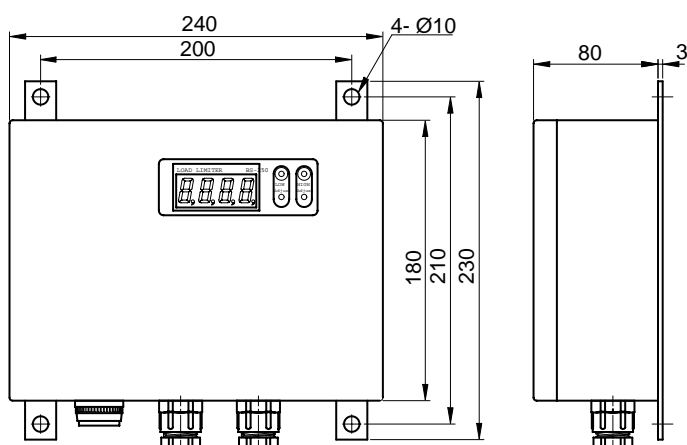

BS-250 series are over load limiters for cranes, lifts, and elevators and so reliable because of using strain gage type - load cell.

They are easy to install because of their small size and built - in digital monitor.

Features:

- Dual setpoint relay output
- 4 digit high brightness LED display
- Wall mount type enclosure(splash proof)
- "KOSHA" approved

SPECIFICATIONS

1.Display	4 digit LED
2.1st setpoint (low)	For buzzer & alarm lamp with time delay on contact, 5seconds
3.2nd set point (high)	For main motor stop with time delay on contracts, 5 seconds
5.Relay signal	Capacity : 3A 250 V AC 6A 30 V AC 1st setpoint : 1a, 1b 2nd setpoint : 1a, 1b
6.Input voltage	110, 220, 240 V AC $\pm 10\%$, 50/60Hz
7.Temperature range, safe	-10 $^{\circ}$ C ~ 60 $^{\circ}$ C
8.Humidity range, safe	20 ~ 80 % RH
9.Enclosure	IP64
